About us

Imvusa Trading 595 cc is an independent, multi-disciplinary building and civil engineering company in the Republic of South Africa. It was established in 2004 by Mr. Bonga Sibiya, a qualified Engineering Technician who has more than 25 years' experience in construction and community development. Our primary market offering includes human settlement development, township roads and infrastructure development, pipeline construction, general roads and earthworks, concrete structures, water and sanitation works.

MAIN AREAS OF ACTIVITY

Our experience and proven track record have resulted in numerous successful projects in the following areas:

- Human settlement development (Housing) and General Building
- Township roads and infrastructure development
- Pipeline construction
- General roads and earthworks
- Concrete structures
- Water and sanitation

COMPANY ADMINISTRATION

The administration and secretarial functions are handled by N B C Mlandu. Nair Incorporated Pty Ltd is the accounting officer, supervising all financial and accounting functions. PAC Solutions provides payroll and skill development services. Our banker is ABSA.

PRINCIPAL CLIENTS

The KZN and Eastern Cape Provincial Departments, BCMM, Amathole District Municipality, Amatole Water, Dept of Public Works KZN, eThekweni Municipality, King Cetshwayo District Municipality, DBSA and parastatals are our principal clients. We work closely with Consulting Engineers on most contracts that

supervise, ensure adherence and compliance with specifications.

Project Overview

HUMAN SETTLEMENT DEVELOPMENT AND GENERAL BUILDING

Imvusa Trading 595 cc has a team of highly qualified contract managers, site agents, technicians and foremen, and a skilled core labour force whose vast experience in the construction of houses and associated works have ensured technical excellence in the delivery of human settlements units. The company has actively mentored several previously disadvantaged sub-contractors and companies, working in close conjunction with them to ensure their ongoing viability and success. Imvusa Trading 595 cc has the will, the ability and the capacity to successfully and profitably include emerging contractors in projects that they undertake.

ROADS & STORMWATER

Imvusa Trading 595 cc has successfully executed diverse contracts in the area of township development including the construction of roads, installation of services and emergency repair work. The company has expertise in the labour-intensive construction of both civil engineering and building projects, where skills transfer is carried out to emerging contractors and labour forces from rural communities. We have excellent relationships with plant hire companies who operate a fleet of equipment suited to all types of construction, and we ensure best practice construction under safe working conditions.

Project overview:

CONCRETE STRUCTURES

Imvusa Trading 595 cc has the necessary experience and expertise to build concrete structures of all types and sizes. This includes *in situ* cast concrete structures such as reservoirs, chambers, heavy equipment and support foundations and retaining walls for both private and public sector clients.

WATER & SANITATION

We have successfully completed a number of water and sanitation projects providing quality life to informal settlements, transition camps and rural schools across KZN. Our team of experienced construction personnel provide efficient cost controls, accurate scheduling, quality controls resulting in efficient and timely execution of the works throughout the duration of the project. Sound knowledge of local structures requirements, health and safety and other local authority requirements ensures all projects are completed on time and on budget without compromising quality.
